No chimney needed. Safe to use. No ashes. No smoke.
Environmental friendly. Easy installation. Endless design possibilities.
Bioethanol Fireplace.

FIND YOUR FIRE

Bioethanol fireplaces open up entire new possibilities for everyone to enjoy the fire's captivating magic and warm glow. The unique fireplaces are ideal for all sorts of homes and locations – whether it is an apartment, a holiday home, cottage, office or restaurant. Only your imagination sets limits when it comes to our chimney-free bioethanol fireplaces.

At Bio Fireplace Group we have years of expertise in the field of bioethanol fireplaces and we are currently selling bio fireplaces to more than 10 European countries. Our philosophy is that it should be possible for everyone to find a bioethanol fireplace that suits their individual needs, expectations as well as budget. Therefore, our selection of fireplaces comes from a variety of different brands and with a great diversity regarding style, design and size – from small and simple to large and complex.

Automatic fireplace - need electircity

Planika Prime Fire
See page 62

AUTOMATIC BURNERS

Also see Planika page 61.

WHY AUTOMATIC

Automatic bioethanol burners are often favored by architects, contractors and high-end designers due to the large separate fuel tank and thus a longer burning time per filling. Furthermore, automatic bio burners contain a series of safety sensors. This means the fireplace automatically turns off whenever an error is detected.

The automatic burners need to be connected to an electric power outlet in order to function due to the integrated safety sensors.

The following series of automatic bioethanol fireplaces are available in four different colors. A remote controller to operate the burner is included without additional costs.

BRUSHED BLACK

MIRROR BLACK

BRUSHED GOLD

STAINLESS STEEL

BIO361

Size: H: 21,5 x W: 40 x D: 23,85 cm
Capacity: 2,7 liters
Burn time: 8-9 hours
Automatic fireplace - need electricity

BIO332

Size: H: 13 x W: 50 x D: 23,85 cm
Capacity: 2,7 liters
Burn time: 6-7 hours
Automatic fireplace - need electricity

BIO333

Size: H: 13 x W: 66 x D: 23,85 cm
Capacity: 4,2 liters
Burn time: 6,5-7,5 hours
Automatic fireplace - need electricity

BIO334

Size: H: 13 x W: 100 x D: 23,85 cm
Capacity: 5,7 liters
Burn time: 6-7 hours
Automatic fireplace - need electricity

BIO335

Size: H: 21,1 x W: 122 x D: 23,85 cm
Capacity: 12 liters
Burn time: 10 hours
Automatic fireplace - need electricity

BIO336

Size: H: 21,1 x W: 152 x D: 23,85 cm
Capacity: 15 liters
Burn time: 9-10 hours
Automatic fireplace - need electricity

BIO337

Size: H: 21,1 x W: 182 x D: 23,85 cm
Capacity: 18,5 liters
Burn time: 9-10 hours
Automatic fireplace - need electricity

BIO338

Size: H: 21,1 x W: 210 x D: 23,85 cm
Capacity: 20,5 liters
Burn time: 9-10 hours
Automatic fireplace - need electricity

BIO359

Size: H: 21,1 x W: 50 x D: 50 cm
Capacity: 9 liters
Burn time: 9-10 hours
Automatic fireplace - need electricity

MANUAL BURNERS

Also see Ruby Fires page 75.

W H Y M A N U A L

Manual bioethanol burners are far cheaper than automatic burners. Therefore, these burners are favorable and preferred among those, who are planning to build their own bioethanol fireplace or to convert their old wood burning fireplace into a modern bioethanol fireplace.

The following manual burners are filled with ceramic fiber cotton, which absorbs bioethanol and ensures no spilling of liquid filled into the burner.

Manual burners do not require electricity. This makes them very versatile as well as easy to install.

BIO317
Size: H: 8 x W: 80 x D: 16 cm
Capacity: 4,0 liters
Burn time: 5-6 hours

BIO339
Size: H: 8 x W: 90 x D: 16 cm
Capacity: 4,5 liters
Burn time: 5-6 hours

BIO322
Size: H: 8 x W: 100 x D: 16 cm
Capacity: 5,0 liters
Burn time: 5-6 hours

BIO308
Size: H: 6,6 x W: 28,3 x D: 10,3 cm
Capacity: 1,0 liters
Burn time: 3 hours

BIO309
Size: H: 6,6 x W: 32 x D: 15,5 cm
Capacity: 1,5 liters
Burn time: 4-5 hours

BIO310
Size: H: 6,6 x W: 32 x D: 17,5 cm
Capacity: 2,0 liters
Burn time: 5-6 hours

BIO323
Size: H: 8 x W: 120 x D: 16 cm
Capacity: 6,0 liters
Burn time: 6-7 hours

BIO340
Size: H: 8 x W: 150 x D: 16 cm
Capacity: 8,0 liters
Burn time: 7-8 hours

BIO341
Size: H: 8 x W: 180 x D: 16 cm
Capacity: 10,0 liters
Burn time: 8 - 10 hours

BIO311
Size: H: 6,6 x W: 32,5 x D: 20,5 cm
Capacity: 2,5 liters
Burn time: 6-7 hours

BIO316
Size: H: 8 x W: 45 x D: 16 cm
Capacity: 2,5 liters
Burn time: 3-4 hours

BIO324
Size: H: 8 x W: 60 x D: 16 cm
Capacity: 3,5 liters
Burn time: 4-5 hours

BIO343
Size: H: 9,3 x Ø: 15 cm
Capacity: 1,0 liters
Burn time: 3-4 hours

BIO330
Size: H: 10,3 x Ø: 22 cm
Capacity: 2,5 liters
Burn time: 6-7 hours

BIO331
Size: H: 10,3 x Ø: 30 cm
Capacity: 5,0 liters
Burn time: 10-11 hours

BURNERS FOR OUTDOOR USE

BIO316-OUT

Size: H: 8 x W: 45 x D: 16 cm
Capacity: 2,5 liters
Burn time: 3-4 hours
Suitable for outdoor use

FLA 3 - Casing C
Automatic burner with open-sided casing for built-in projects.

BEV™ TECHNOLOGY

Planika is one of the leading manufactures of intelligent fireplaces and their automatic fireplaces are packed with the newest technology and safety sensors. All of Planikas automatic burners use their BEV™ Technology (Burning Ethanol Vapours), which they proclaim to be the safest way of burning bioethanol in a bioethanol fireplace.

The difference between other bioethanol fireplaces and Planikas fireplaces using BEV™ Technology, is that only the ethanol vapours, that have been created in an enclosed ethanol vapour generator, is burning compared to directly burning the liquid bioethanol as other automatic burners do.

- ① MAIN FUEL TANK WITH FUEL LEVEL SENSORS
- ② AUTOMATIC FUEL FEEDING SYSTEM
- ③ MICROPROCESSOR
- ④ ETHANOL VAPOURS GENERATOR

Burn time: 8,5-15 hours

L-FIRE CASING

Size: H: 70,6 x W: 65,8 x D: 32,5 cm
Capacity: 6,0 liters
Burn time: 8,5-15 hours

L - FIRE

A growing number of countries are banning wood burning fireplaces. This affects people who obviously do not wish to give up their beloved flickering flames.

Planika responds to the issue by introducing a new revolutionary fire-place – the L-Fire. This unusual product is an eco-friendly fire stove in an ageless front-open casing. It does not produce any smoke or soot, making it a replacement for old-fashioned, wood-burning fireplaces. And the flames are even more beautiful.

FEATURES

- BEV™ Technology
- Automatic refill system
- LED Control panel
- Advanced safety sensors
- 2 levels of flame height
- Ceramic Logs, decorative granulate and small front glass included
- No hard connection required
- Optional remote control
- Optional frame
- Optional front frame with mesh for additional protection
